

You're invited to this upcoming webinar!

Medium Voltage Solutions for Fan Applications

Wednesday, September 13, 2017 at 12:00 p.m. CT

Did you know medium voltage applications are found primarily in heavy industries due to application power requirements? Join us as we explore some of the most common types of fans and how they are applied in medium voltage applications. We'll address specific challenges found in everyday fan processes. We'll then review how Rockwell Automation can provide you with the best fit for these applications and how we can help solve these challenges.

Join us to learn more about:

- When to choose a medium voltage solution vs. a low voltage solution
- Achieving energy savings with a suite of medium voltage products from Rockwell Automation
- How to address the most common challenges you face in your fan applications

Can't make to the live webinar? Register anyway and we'll send you a link to the recording.
