▶ ABOUT US

Founded in 1923, we are a fourth-generation, family-and employee-owned business and one of the nation's largest independent electrical and industrial distributors. We have built our business on exceptional customer service, superior technical ability and the highest degree of integrity. Headquartered in Linden, NJ, our Electrical Distribution division operates 17 branches and two distribution centers. It is a significant force in the engineering and procurement of power distribution, automation, lighting and energy projects, offering integrated services for the industrial and construction markets. Turtle & Hughes Integrated Supply (THIS) division provides on-site MRO procurement, cost saving and spend analytics operating across the U.S., and in Canada, Puerto Rico and Mexico.

▶ OUR PRODUCTS

Our strong manufacturer relationships provide a wide selection of high quality products at competitive prices. Large regional warehouses and a fleet of GPS-tracked trucks ensure that materials are delivered when and where you need them. On-site logistics and materials management reduce the risk of excess inventory. We offer around-the-clock emergency services and electronic ordering.

▶ SUSTAINABILITY

We recognize the value of sustainable and environmentally preferred procurement practices. We challenge our suppliers to promote and provide sustainable products and our employees to act responsibly so that together, we can power a better tomorrow for everyone on this planet.
